Memorandum to Joe Steinberg:

I talked with our lawyer last week. He indicated that he had spoken to you earlier. He intends to talk to Mr. Michael Hayward of the U.S. Mission to the United Nations to open up negotiations towards the acquisition of the FM station.

I don't know if you talked with Mr. Nelson about filing necessary papers with the FCC. No matter how many services Mr. McGannon helps provide, we will undoubtedly work with our official university counsel.

The question of university financial commitment remains. Your estimate back in March, 1962 was for capital expenditure of \$28,500. Your have also suggested that some of the equipment might be contributed. Now is the time to come to a hard-headed approach on this contribution aspect. Realistically, what do you think we can raise? The Development Office, I believe, should be able to give us some help. The more help we can get, the better the prospects.

I have one additional point to take up with you. After considerable thought, I can come to no other conclusion that that your budget for 1965-66 including the request for capital expenditures be handled through the Office of Student Activities at University Heights. I appreciate your problems and will talk to appropriate parties about them, but I simply cannot see any way in which your line of budgetary connection would be directly through this office.
